

Chapter 1 - Introduction

- 1. Show your proof of Theorem 1.4 [# of permutations, r at a time]

.....

.....

.....

.....

.....

.....

.....

- 2. Show your proof of Theorem 1.8 [n objects into k subsets]

.....

.....

.....

.....

.....

.....

.....

- 3. Show your proof of Theorem 1.10 [Combination of the complimentary set]

.....

.....

.....

.....

.....

.....

.....

4. Show your proof of Theorem 1.11 [Combination for Pascal's Triangle]

.....

.....

.....

.....

.....

.....

.....

.....

5. Show your proof of Theorem 1.12 [Sums of combinations]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....
